

WE'RE HIRING!

**Institute of Crop Design –
Assistant/Associate/Full
Professor**

APPLY ONLINE: ugajobsearch.com

About the UGA College of Agricultural and Environmental Sciences

The College of Agricultural and Environmental Sciences, founded in 1859, is a leader in agricultural research. Its world-class programs have generated breakthrough discoveries in precision agriculture, sustainability, genomics, and climate resilience. Faculty and students drive impactful research that strengthens Georgia's \$80+ billion agribusiness economy while addressing global challenges in food security and environmental stewardship.

Redesign the Future of Agriculture.

Join the University of Georgia's new Institute of Crop Design as part of a strategic cluster hire recruiting three open rank tenure-track faculty. Consideration of applicants will begin October 15, 2026.

Help pioneer the next generation of climate-resilient, high-yield crops using AI, synthetic biology, genome engineering, and quantitative genetics. Backed by world-class facilities, interdisciplinary collaboration, and a thriving agricultural research ecosystem.

Now hiring in:

- AI & Computational Crop Design
- Advanced Genome Engineering
- Integrative Crop Design & Synthetic Biology

Build what's next. Shape the future of food, fuel, fibers, and beyond.
